Summary

I am a highly motivated and skilled Full Stack Developer with a focus on front-end development and a strong understanding of back-end systems. I have a C2 level of English and excellent communication skills, making me a valuable asset to any team.

I've been through intensive training, including a bootcamp, to level up my skills and stay current with the latest tech advancements. I am a fast learner and always eager to take on new challenges. In my free time, I enjoy working on personal projects to further my understanding of technology and improve my skills. I am a dedicated team player with a strong work ethic and a commitment to delivering quality results.
